CaptiveAire one of 50 fastest growing private companies in Raleigh Triangle – again!

Raleigh, NC (November 2, 2007) – CaptiveAire, Inc. is one of the 50 fastest growing private companies in the Raleigh Triangle, according to the *Triangle Business Journal's* annual “Fast 50” rankings. During the past five years, sales have doubled for the commercial kitchen ventilation manufacturer, and the company has grown at the robust, compounded rate of 16 percent.

“CaptiveAire helps customers’ business grow,” says Robert Luddy, the company’s founder and president. “When kitchen operators eliminate more grease vapors, use less energy, and cut pollution, they save time and money.”

Every year, kitchen operators, equipment dealers, and industry consultants name CaptiveAire “Best in Class” among ventilation manufacturers.

CaptiveAire’s integrated commercial kitchen ventilation systems include independently tested and certified exhaust hoods, ductwork, fans, heaters, electrical controls, and make-up air appliances.

With four manufacturing plants and 60 sales and engineering offices across the U.S. and Canada, CaptiveAire offers comprehensive service – from design to delivery – at the best prices in the industry.

The *Triangle Business Journal* will profile the “elite” “Fast 50” winners in its November 2 edition.
