CaptiveAire Continues to be the “Best in Class”

RALEIGH, NC (October 14, 2008) – For the eighth year in a row, CaptiveAire, Inc. is the nation’s “Best in Class” commercial kitchen ventilation manufacturer. This award is based on votes by industry kitchen equipment dealers, broadliners, consultants and operators and is featured in *Foodservice Equipment & Supplies* magazine.

This year, CaptiveAire released System 10 to provide a complete solution to commercial kitchen ventilation. The new System 10 makes ventilation easy, and consists of innovatively designed ventilation products to create a powerful, integrated package. System 10 has been engineered with sustainability and cost effectiveness in mind.

CaptiveAire’s integrated kitchen ventilation packages include hoods, exhaust fans, electrical controls, direct-fired heaters, pollution control units and utility distribution systems. Captive-Aire’s clients include independent restaurants, national chains, and other public and private institutions.

CaptiveAire, the nation’s largest and most widely respected manufacturer of commercial kitchen ventilation equipment, runs five manufacturing plants, including a new plant in Bedford, Pennsylvania, and 60 sales and engineering offices across the United States and Canada.
